

***DOWNLOADING  
LIBRARY E-BOOKS***

# Kindles

Cragin Memorial Library is pleased to offer its cardholders downloadable e-books through its membership in the OverDrive consortium.

These instructions can be used to download e-books to Kindles. If you need instructions on downloading e-books to Barnes and Noble Nooks or to other non-Kindle e-reader devices, please see our brochure entitled *Downloading Library E-Books to Nooks, Sony E-Readers, and Other Non-Kindle E-Reader Devices*.

Getting Started

Most OverDrive e-books now are compatible with the Kindle. To download a library e-book to a Kindle, you will need:

- an Amazon account
- a registered Kindle device with a Wi-Fi connection (not 3G) and a computer; OR a registered Kindle device, the Kindle USB cord, and a computer; OR a registered Kindle app on a device such as an iPhone, iPad, or Android device, and a computer
- a valid library card from an OverDrive member library

Please note that you cannot download library e-books to the Kindle directly. You must download the book using a computer and then transfer it to your Kindle.

Checking Out and Downloading E-Books from the Library Collection

Follow these steps to check out and download an e-book to your Kindle:

1. On your computer, go to [www.colchesterct.gov/library](http://www.colchesterct.gov/library), then scroll down and click on the icon for *OverDrive Download*. The OverDrive collection also can be accessed directly at <http://libraryconnection.lib.overdrive.com>.
2. Click on *Sign In*, select the library name shown on your library card, and enter your 14-digit library card barcode number (leave no spaces).  
**Please note that your library card must be from an OverDrive member library. If you live in a community whose library does not pay to belong to the OverDrive consortium, you will not be able to use the OverDrive service.**
3. Select a book and check it out.
  - Choose a category from the menus along the top of the page. To see the largest selection, we recommend starting with *All E-book Fiction* or *All E-book Nonfiction*, especially if you just want to browse and see what kind of books are in the collection. You can also view e-books by category: Classics, Historical Fiction, etc.
  - If you want to see only those books that are *currently available* to check out, at the top of the results screen, click the box next to *Only Show Titles with Copies Available*. You can also search for specific titles or authors in *Advanced Search*.  
**Please note: e-books come in Kindle format, Adobe ePUB format, or Adobe PDF format. To read the book on a Kindle, you must select Kindle from the format list. Most – but not all – library e-books have a Kindle version.**
  - Once you find a book you would like to read, click on the title. Either *Place Hold* (see more on placing holds below) or *Borrow*.
4. On the next screen, click on *Download Kindle*, then click on *Kindle Book* from the dropdown list, then click on *Confirm* and *Download*. (If you don't want to transfer the book to your device right away, or if you have checked the book out using a computer other than your own, you can come back and do this step later. Go to the OverDrive website and log in as directed above, click on *My Account*, click on *My Checkouts*, and then click on *Get for Kindle*.)
5. If you do *not* have an active Wi-Fi connection, go to step 6.  
If you have an active Wi-Fi connection:

<b>If you are logged into your Amazon account:</b> <ul style="list-style-type: none"><li>a. Select the <i>Deliver To</i> device.</li><li>b. Click on <i>Get Library Book</i>.</li></ul>	<b>If you are not logged in to your Amazon account:</b> <ul style="list-style-type: none"><li>a. Click on <i>Get Library Book</i>.</li><li>b. Log into your Amazon account.</li><li>c. Select the <i>Deliver To</i> device.</li></ul>
---	---

The library e-book will be delivered via Whispersync to your Kindle and you are done.

6. If you do *not* have a Wi-Fi connection, connect your Kindle to a computer with the Kindle's USB cord and follow the steps below. **Please note that, due to publisher restrictions, some books MUST be transferred via USB.**

<b>If you are logged into your Amazon account:</b> <ul style="list-style-type: none"><li>a. Select <i>Transfer Via Computer</i> in the <i>Deliver To</i> drop-down menu.</li><li>b. Click on <i>Get Library Book</i>.</li><li>c. On the next screen, select the Kindle you plan to transfer the e-book to via USB and click <i>Continue</i>.</li></ul>	<b>If you are not logged in to your Amazon account:</b> <ul style="list-style-type: none"><li>a. Click on <i>Get Library Book</i>.</li><li>b. Log into your Amazon account.</li><li>c. Select <i>Transfer Via Computer</i> in the <i>Deliver To</i> drop-down menu and click on <i>Continue</i></li><li>d. On the next screen, select the Kindle you plan to transfer the e-book to via USB and click <i>Continue</i>.</li></ul>
--	--

Amazon will instruct you to save the file, then drag and drop it into the *Documents* folder on your Kindle.

## Returning E-Books Early

Downloadable e-books will automatically return to the library's collection at the end of their lending periods, so you will never have to pay overdue fines. If you do not return your e-book early, at the end of the loan period the book will simply expire. The title will still appear in your device contents, but you will no longer be able to open it. However, you may return e-books early if you wish to remove the title from your account or to make titles available for other patrons to borrow.

To return a Kindle downloadable e-book early:

1. Go to [www.amazon.com](http://www.amazon.com).
2. Log in to your Amazon account.
3. Go to *Manage Your Kindle*.
4. Locate the book in the list.
5. Click on *Actions*.
6. Click on *Return This Book*.
7. Click on *Yes*. The book will be removed from your library downloadable account and will become available for another patron to borrow.
8. If you wish to delete the title from your Amazon Kindle Library, click *Actions* again, then *Delete from Library*. You may also need to manually remove the title from your device.

## Placing a Hold on an E-Book That Is Checked Out

You may place holds on any e-books that are currently checked out to other patrons. Log in as outlined above and find the item on which you would like to place on hold. Click *Place a Hold* next to the Kindle version of the e-book. You will be brought to a screen where you will be asked for an email address. Fill in your address, then click the *Place a Hold* button. You will receive an email when the e-book is ready for you to borrow and download. You will have 48 hours **from the time the email is sent** (not from when you read it!) to log into OverDrive and check out your item. When you get the email that the e-book is ready for you to download, log into OverDrive as directed above, click on *My Account*, click on *My Holds*, then add any available holds to your cart. Then you may follow the checkout procedure above.
